Springfield, Mass., U. S. A.

IN issuing this list of Private Tobacco Proprietary Stamps, we feel that our efforts will be appreciated by all collectors who are interested in United States Revenue Stamps, as we know of no list of these stamps published since August, 1883. We have used the utmost care in our work and have listed only those, which we know to have been in the possession of some collector. The same can be said of the essays.

The list contained on the last eight pages was taken from the records of the J. J. Crooke Company [Foil Printers] by Alfred A. Post as work done by them, but there is nothing to show that these were stamped foils, and as we have many foil wrappers of the brands mentioned, upon which an adhesive stamp was used, we are inclined to believe that they were all of that class.

To those not familiar with these stamps, we will say that Private Tobacco Proprietary Stamps are divided into two classes. First: With stamp and brand printed on tin foil. These were issued in 1868 and are still in use. Second: With stamp and brand printed on paper. These were also first issued in 1868 and were printed by the Continental Bank Note Company. This issue was in use for a very brief period. The next issue appeared in 1878, and was printed by the Graphic Company. This was discontinued in 1881.

There is one thing which should be noted carefully in following this list. On all foils the proprietor's name is **the one inscribed in the circle containing the date**, without any regard to the proprietor's name given elsewhere on the foil, as in many cases, **brand owners** sold out and the new proprietor retained the old brand and name, but his name was **always inscribed** in the date circle.

We are indebted to Mr. H. E. Deats for the privilege of examining one of his books of tin foils.

JOHN W. PREVOST,
J. DELANO BARTLETT.
